THE WHEELER DEALERS

Next Phase Proposal — Growth & AI Roadmap · September 2026 · Prepared by Kashif

> **Asim bhai,** platform ab solid foundation par khara hai — inspection marketplace (4 roles), AI valuations, live UAE price search aur online payments sab ready hain. Ab mai soch raha hoon agla phase kya hona chahiye. Ye document meri thinking hai — 4 phases mein, har feature ka faida aur timeline ke sath. Aap jo phase pasand karein, usi se start karte hain. 👇

ALREADY LIVE / READY — current status

MODULE	STATUS
Inspection Marketplace — Customer OTP booking, Company portal (Uber-style live jobs, first-accept-wins), Inspector 148-point digital inspection, Super Admin dashboard with revenue & payouts	✅ Complete & QA-tested (16/16 checks)
Online Payments — Stripe checkout: customer pays first, job goes live only after payment confirmed	✅ Built & tested (needs your live Stripe account)
Sell Module — Mulkiya AI reading (chassis + engine no.), valuation from 47,600+ real UAE listings, live web price search with source proof	✅ Complete
New hero design, WhatsApp expert chat, admin panels	✅ Complete

PHASE 1 — BOOKING EXPERIENCE (approx. 1 week)

1. **Live progress checklist**
   Booking chat ke sath sidebar mein ticks: Name ✓ Car ✓ Location ✓ Date ✓ — customer ko pata rahta hai kitna baqi hai. **Kam log booking chhor kar jayenge.**

2. **Car photo upload in chat**
   Customer car ki photo bheje, AI khud make/model/colour bhar de (hamari Mulkiya AI reuse hogi). **Booking aur asaan.**

3. **WhatsApp booking start**
   Aik link se wahi AI booking chat WhatsApp par shuru — UAE customers WhatsApp par hi rehte hain. **Naya booking channel, zero extra cost.**

4. **Real slot availability**
   Har emirate mein asli available time-slots dikhein — double booking khatam. **Operations clean.**

PHASE 2 — REVENUE FEATURES (1–2 weeks)

5. **Inspection packages — Basic / Premium / Pre-Purchase**
   AED 299 Basic · AED 499 Premium (extra photos + video) · AED 699 Pre-Purchase (buyer ke sath inspector). **Average order value seedha upar.**

6. **Company subscription tiers**
   Companies monthly fee dein to jobs ka alert 5 minute pehle milta hai ya commission kam lagta hai. **Recurring monthly revenue.**

7. **Inspection upsell in Sell flow**
   Valuation ke baad message: “Verified inspection report wali cars ~8% zyada mein bikti hain — abhi book karein.” **Sell leads → paid inspections.**

8. **Trade-in bundle**
   Agar customer car hamare through beche to inspection fee wapas (credit). **Dono modules aik dosre ko feed karte hain.**

PHASE 3 — AI DIFFERENTIATORS (2–3 weeks — market mein koi nahi karta)

9. **AI damage detection from photos**
   Inspector photo le, AI khud dent/rust/scratch detect kar ke checklist bhar de — inspector sirf confirm kare. **Inspection time aadha, quality consistent.**

10. **AI report summary — English + Arabic**
    148 points se AI professional paragraph likhe har section ka, dono zubanon mein. **Reports premium lagengi.**

11. **Voice input for inspectors**
    Field mein typing ki jagah bol kar findings record — AI text bana de. **Tez kaam, khush inspectors.**

12. **Inspected Value™ — report se final price**
    Inspection complete hote hi report ke asli scores valuation mein jayen: “Estimated 38–45k → Inspected Value AED 41,200”. **UAE mein ye KOI nahi karta — hamara sab se bara differentiator.**

PHASE 4 — GROWTH & OPERATIONS (1–2 weeks)

13 **Customer dashboard**
"My bookings & reports" — OTP login already bana hua hai, uske peeche history page. **Repeat customers.**

14 **Automated review requests**
Report deliver hote hi WhatsApp par Google-review link. **Free marketing, trust building.**

15 **Companies map view (admin)**
Sab companies Google Map par pins ke sath — jaise aap ne call par kaha tha. **Aik nazar mein poora network.**

16 **Referral codes**
Dost ko refer karo, dono ko AED 50 off. **Word-of-mouth growth.**

AAP KI TARAF SE CHAHIYE (pending accounts — code sab ready hai)

#	ACCOUNT / KEY	KIS LIYE
1	Stripe live account (UAE business)	Real payments — test mode mein sab verified hai
2	WhatsApp Business API (Twilio/Meta)	Job alerts + booking confirmations real phones par
3	SMS provider (same Twilio)	Customer OTP delivery
4	Google Maps billing key	Map pins + address autocomplete
5	Database always-on plan (~$19/month)	Launch par fast response, no cold starts

Meri recommendation: Pehle **#12 Inspected Value** + **#9 AI damage detection** (Phase 3) — ye dono cheezein UAE market mein kisi ke paas nahi hain aur demo mein sab se zyada impress karti hain. Sath Phase 2 ke packages (#5) laga dein to revenue bhi foran barhe ga. Aap approve karein, mai usi din start kar deta hoon. 🚀
